- JavaScript
- Node.js
- SQL
- Sequelize
- React
- Redux
- HTML
- CSS
- Problem-solving
- Adaptability
- Effective communication
- Agile methods

Experience

Projects I have been part as developer

- **Sneaker Shop** (from 03-2021 to 04-2021)

It is a project launched in just one month and carried out by a team of nine developers. The aim of the project was to create an e-commerce from scratch as a final project of the Henry Bootcamp. On it, it was decided to use TypeScript and GraphQL.

Personal achievements: working in a large web app, establish an efficient dynamic group interaction, and learning new technologies with in limited period of time.

- **Poke App:** (03-2021)

It is a short project of a complete app, including the API and the client. Its aim was to create an interactive database for Pokémon's fans implementing the technologies learned at Henry Bootcamp.

Personal achievements: create and optimize an API with its database, modularization of reusable components, improving the user experience.

Others projects are public on my [GitHub profile](#)

Other experience

- **Siemens Energy** (from 10-2017 to 12-2020)
